

FABRICATION

BESPOKE STEEL SECURITY

We can provide a wide variety of metal fabrications, tailored to your individual needs.

- Products can be manufactured in mild steel, galvanised steel and stainless steel.
- All products can be powder coated to one of our standard colours if required.
- Our bespoke products are hand crafted and can be made to complement existing products, whilst fitting in with features of your building or standing out if required.
- Products we can provide include window bars, fencing and gates, machinery guards, church window guards, hand railing, anti-ram posts and barriers, Visionary Screens and steel doors. However, this list is not exhaustive and if you have a specific requirement, give us a call and we will do our best to assist you.

FABRICATION

BESPOKE STEEL SECURITY

- **Grilles** can be as simple or as ornate as you require for window and door protection. They can be shaped to allow windows to open.

- We provide a wide range of **fencing and gates**, including hoop top, arrow head, ball top and palisade. Gates can be in singles or pairs and can be manually or electrically operated.

- We can **protect churches** from vandals by providing guarding to protect stained glass windows. All we require from you is a size and template.

- Our **Visionary Screens** protect windows and doors from damage by vandals and add to the security of the premises, whilst at the same time offering clear vision through the glass from within the building.

- **Steel doors** are available as single or double door sets, along with standard door furniture and various options, such as door closers, panic bars and vision panels.
